

South Martin Regional Utility
SMRU FY 22-23 CHEMICAL BID REQUEST
RFQ 2022 FREQUENTLY ASKED QUESTIONS
JULY 22, 2022

This addendum shall modify and become a part of the original solicitation.

To all prospective bidders, please note the following questions or requests for clarification answered below in **bold** text:

Q1: Who should be contacted to coordinate polymer testing?

A1: **Polymer testing should be coordinated through the Waste Water Division Manager**

Mike Gavin

mgavin@tji.martin.fl.us

772-208-0010

Q2: Are TSP, STPP, and Citric Acid used for water treatment? Do they need to be NSF 60 certified?

A2: **TSP, STPP, and Citric Acid are used as cleaning agents for water treatment components. They are not directly used in the water treatment process and do not need to be NSF 60 certified.**

Q3: Is crystalline TSP acceptable?

A3: **Crystalline TSP is acceptable provided it fully dissolves in water.**

Q4: What are the approximate order quantities for TSP, STPP, and Citric Acid?

A4: **TSP, STPP, and Citric Acid are ordered by the pallet. The number of bags per pallet can vary depending on the availability of the distributor. Our maximum storage capacity is one pallet each of TSP, STPP, and Citric Acid.**
